PROFESSIONAL SUMMARY

I am a Software Engineer graduate student with a strong background in mechanical engineering of 3 years developing complex simulation systems. Strong foundation in programming and problem-solving skills, with proven ability to translate real-world problems into a technical solution. Seeking to leverage my experience and continuous knowledge into a more technology driven role.

PROJECTS

Financial Analytics/Portfolio Tracker *(Tech: Java, API, PostgreSQL)*

- Created a full-stack financial analytics platform to track portfolio performance and visualize returns
- Implemented financial calculations including CAGR, volatility, and moving averages for real-time insights
- Integrated external APIs for active updates on asset values and utilized REST APIs for a structured backend

Blog Website *(Tech: Python, Flask)*

- Built a multipage interactive blog website with mixed features
- Implemented storage features for posts and users with credential verification
- Used modern features like profile picture resizing and password reset by email

Financial Planner *(Tech: JavaScript, HTML/CSS)*

- Made a source for user input to run simulations based on their financial situation
- Added a post information section to display different avenues depending on circumstances
- Used modern financial practices with historical returns

EXPERIENCE

Mechanical Engineer **(Current)**

Frasca Flight Simulation | June 2023 – Present | Urbana, IL

- Designed components to replicate the aircraft components
- Implement new mechanical engineering concepts to new designs
- Assist software engineers with mechanical and software translation

Mechanical Engineer

All Pro HVAC | September 2022 - June 2023 | Tuscola, IL

- Perform heat load calculations for new developments
- Design ductwork for proper air distribution and pressure equalization

EDUCATION

Master's in Software Engineering **(Current)**

Grand Canyon University | October 2025 – April 2027

GPA: 4.0

Bachelor's in Mechanical Engineering - Energy Specialization

Southern Illinois University | August 2017- December 2021

GPA: 3.64

SKILLS

Languages: Java • JavaScript • Python • C++ • C# • HTML/CSS

Libraries/Tools: SQL • Pandas • Flask • Git • React • Spring

Engineering/Business: SolidWorks • Inventor • Microsoft Office • Financial Modeling • Leadership
